GREGORY'S SEEDS

ESTABLISHED 1856

1944 Special Prices for Everyone

We pay postage or freight, our option.

10% cash discount on cash order placed in January.

GREGORY'S GUARANTEE

1. That all seeds shall reach our customers in good condition.

2. We guarantee the vitality and purity of our seeds to the full amount of the purchase price. Your money back within one year if you are not satisfied with results.

3. It is agreed that in no case shall J. J. H. Gregory & Son be liable for more than purchase price of the seed.

We make no charge for cloth bags.

Our business was started in 1856 and this eighty-eighth year we take pleasure in presenting our Special Prices to Every One for consideration. Expenses have been cut to enable us to keep our prices within the reach of all. We appreciate your patronage and will furnish you with seeds of the very highest quality. Prices have increased and before the season is over we are afraid many standard strains will be out of the market. Where it is possible every family should plant a garden. What you cannot use green put up in glass jars for winter. As the war continues our government will need the greater part of the crops grown in the country to feed the Army, Navy and all our allies.

The shortage now is a sample of what we may expect later. There isn't a large supply of seed. With increased planting required by our government we doubt if there is seed enough to meet the demand. Place your orders early and be sure of your supply. It only takes a small piece of ground to produce enough to keep a family a good part of the year.

Yours for a prosperous season,

J. J. H. GREGORY & SON,

EDGAR GREGORY, Prop.

VEGETABLE SEED

DWARF GREEN POD BUSH BEANS

Plant 90 lbs. per acre.

	Pkg.	½ Lb.	Lb.	2 Lbs.	5 Lbs.
